

UNC ANIMAL USE PROTOCOL
Attachment B – EUTHANASIA

The UNC IACUC follows the recommendations of the AVMA Panel on Euthanasia. The AVMA recommendations on acceptable methods of euthanasia are available in the “[2007 AVMA Guidelines on Euthanasia](#).” Refer to Appendices 2, 3 and 4 of the guidelines to determine the acceptability of a planned method.

C.1. PHARMACOLOGICAL METHOD: Complete this section if using a purely pharmacological method (e.g., Pentobarbital overdose, CO₂ asphyxiation). Indicate the name, dose and route of the drug. N/A
